## PRODUCT

## DESCRIPTION

Flexi No edge Blending Tape is flexible product designed to mask curved swage lines and panel edges. Eliminates unnecessary rework. No hard paint edges.

International patent pending.

## FEATURES AND BENEFITS

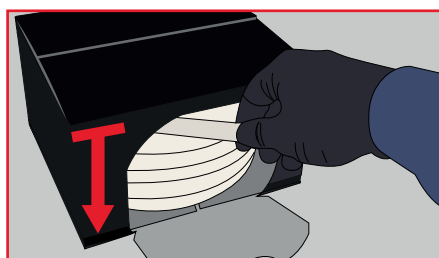

- ✓ Suitable for blending where flexibility of the product is key
- ✓ Seamless blending from old to new paintwork
- ✓ No hard paint edges
- ✓ Just one size for every occasion
- ✓ Absorbent

## AREAS OF APPLICATION

- ✓ Filler caps
- ✓ Bumper edges
- ✓ Wheel arches
- ✓ Roof panel lines
- ✓ Bridging screen gaskets/rubbers
- ✓ Fog lights

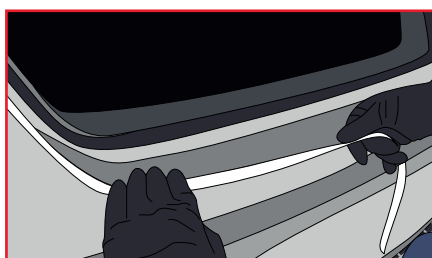

## DIRECTIONS

### STEP 1

Remove product starting from the top row in the box.

### STEP 2

Choose required contour to blend to and apply directly to vehicle ensuring tape is not stretched.

### STEP 3

For best results remove before clear coat bake. Stretch the tape when de-masking to ensure clean removal.
